FOREIGN NEWS.

By the arrival of the British ship Achilles and the kind attention of Mr. J. H. C. Richmond, we have received San Francisco papers to the 10th ultimo, containing foreign summaries by overland mail from St. Louis to Aug. 18. New York papers to Aug. 16, and European dates to Aug. 6.

From the San Francisco Bulletin and from the Alta we extract:

United States. A dispatch of the 16th August has the follow-

Letters from Juarez, for Constitutional Government, just received here, allude with great satisfaction to the favor with which the decree for the nationalization of Church property was everywhere received, even in the city of Mexico.

naval forces, in his visits to the President of Mexico, mentioned with gratification the occasion of announcing that, by order of the British Government, he would not enforce the measures hereto-Will receive orders for Drugs and Medicines, etc., for Messrs. Thomas & Fuller, New York.

DeFolled, at San Louis Potosi, has, it is supposed, about 9,000 troops under his command preparing to march on the city of Mexico. Arms and ammunition are constantly being received by the Liberalists. Senor Mata, who has just returned from New York, has concluded a contract for materials of war, which will without unnecessary delay be forwarded to Mexico. Mr. Whitehead, who was banished from Mexico where he resided for many years, vill soon return to England, in behalf of the British bondholders, and will exert himself to isfy all their claims, the Church property be; a the basis for the transac; tion, and by which it is thought millions of dol-

> The New York Herald of August 15th, denies the statement of the London papers to the effect that the United States Government have resolved to abandon privateering. The Herald says: " No Administration in this country would entertain. still less make a declaration of such a principle. Privateers are our militia, and the United States will never abolish them until the European nations shall abandon their navies."

ISTHMUS CANAL .- A dispatch from Washington states that the party for discovering a ship canal across the Isthmus of Darien will be organized for the most part by officers and so forth detached from the Gulf Squadron. It will proceed on board the Preble to the east coast, and seek to verify the statement of Gisborne Cullen and Surgeon Caldwell of our own navy that such a gap or depression of the Eastern Cordilleras exists as to admit of the construction of a ship canal. The country westward thereof to the Bay of San Miguelar, on the Pacific, is represented as nearly flat. Avery, who accompanied Strain, goes out to join the expedition, and with him an experienced æronaut, with balloons, instanter types, &c., by which it is admitted that considerable advantage must result to the expedition.

More Filibustering .- The Vicksburg Whig of the 10th inst. announces having seen a letter from Gen. Walker, avowing his intention to start another " emigration scheme " for Nicaragua in a few weeks. Parties wishing to go are expected to be in New Orleans by the 18th of September ensuing. Will this man Walker never cease to harrass and torment our negotiations ? DAUGHTERS OF MALTA. - From the Rockville,

(Illinois,) Standard, edited by one of Eve's daughters, I find that "The Daughters of Malta" are becoming quite as distinguished, and seem to be quite as benevolent in their designs, as the "Sons of Malta." Their object is said to be to relieve widowers, destitute bachelors, dandies, Hottentots and orphan male children. By the time the "Sons" obtain the Island of Cuba, which it \$ppears they are after with a "very sharp stick," the "Daughters" confidently expect to subjugate " the Isle of Man."

THE ST. THOMAS PURCHASE. - A French journal states that Buchanan has purchased from Denmark the Island of St Thomas, with the adjacent islets of Santa Croix and St. John. St. Thomas is the central coaling station for the Royal West India mail steamers, and is a formidable military

position in the Antilles. In the two-mile trot to harness between Flora Temple and Princess, for a purse of \$1,000, which came off on Eclipse Course, Long Island, on 16th August, the former won in two straight heats. Time-4: 50 1-2 and 5: 05.

London, August 4 .- Telegrams from Paris say the French Adriatic Squadron has returned to Toulon. The troops from Italy were continually arriving at Marseilles.

The bill creating a Naval Reserve of 30,000 men was progressing in the British Parliament. The Representatives of Austria, France and Sardinia were en route to the Peace Confederacy which was to be held on 8th August.

The steamship Great Eastern was to be delivered to the new owners, complete, on 18th August. The "strikes" among the builders in London were becoming serious. About 40,000 workmen were out of employment.

Later from Tahiti.

By the American ship Moneka, in 20 days from Tahiti, we have received a file of the Messager de Tahiti up to Aug. 28, from which we make the following condensed extracts:

All foreigners are politely informed by the Imperial Commissioner that they cannot, in conformity with the laws, establish their residences in any district whatever without special permission from the Director of European Affairs. The proclamation says that "these wise measures have nowise for object to keep the foreigner away, but on the contrary to gradually accustom the natives to the morals and manners of Europeans?" and also because "the duty of the Protectorate requires that the local administration should not permit, without its surveillance, relations to be established between the natives and the foreigners in which it must be avowed that the natives are too often the dupes. Besides this simple superintendence every facility will be afforded," etc., etc. Apparently Tahiti has no more foreigners than the Government can keep the run of; but were it to have 300 whaleships visit its port, and 500 passengers from California to explore the country, we think that such a proclamation would be hooted down as be-

-The three masted English schooner Dart, Capt. Lenby, from Valparaiso, fitted as a pleasure vacht, arrived on the 9th July, bringing Mr. Urmensta, brother of the Secretary of State in Chile and Member of the Senate, and wife, and Mr. Forbes, sent out by the Geological Society in London, as passengers. Apropos of this arrival, the Messager regrets that since 1843 no regular postal service has been instituted between Tahiti and Valparaiso, the natural products of which countries would seem to offer so profitable an exchange; and it informs us that during those 16 years 89 Chilean ships have arrived at Tahiti bringing imports to the value of five millions of francs, and

expending nearly an equal sum. -The quarterly commercial exhibit of the port

herself that France keeps up the Protectorate. -From a proclamation against the thing, we learn that some of the natives on the Tuamotas had been practising "sorcery worthy of the heath-

-All the foreign residents in the different districts of Tahiti have been invited by the Director of Foreign Affairs to send in (" with the least delay") information of their " names, given names, professions, ages, domiciles, nationality, if they are married, widowers or bachelors, the number of children that they have and their ages, and finally

the time when they arrived at Tahiti." We would like our Minister of Foreign Relations to issue a similar invitation to the residents of foreign extraction in this country.

-The festivities of the 15th of August were celebrated with a splendor that is said to have eclipsed any thing before seen of the kind in Tahiti. Who will draw up and collate the gencalogies of the Hawaiian chiefs and chiefesses?

-The Imperial Commissioner decrees that from the 15th August a fixed price shall be imposed by the Government on all bread baked in Tahiti once a month, or oftener if necessary; the price to conform to the current price of flour, taking 100 kilog. of flour at 2 francs as the standard. The weight of bread is also regulated, and fines and penalties imposed on all bakers who shall sell for more than the government price or less than the government weight. Article 8 of the decree prescribes that the bread shall be wel! kneaded, fermented and baked; and Article 9 forbids the bakers to use spoiled flour or mixed flour under pain of confiscation. Two reasons are given for these measures. One, that it is the custom in all French colonies; the other, that it will tend to increase the use of bread among the natives.
